**REMARKS**

A Notice of Drawing Inconsistency With Specification was mailed on October 25, 2006, in connection with the above-referenced patent application. In that Notice, it was noted that Figure 3b was listed in the Brief Description of the Drawings in the specification but not contained in the Drawings. One month was given to respond to this Notice.

Applicant has amended the specification to delete references to Figure 3b and has relabeled Figure 3a as Figure 3. Applicant notes that all of the proposed content of Figures 3a and 3b was in original Figure 3a. There never has been a Figure 3b. The specification and Figure 3a were incorrectly labeled. Entry of the proposed corrections to the specification and drawings to correct the noted inconsistencies is requested.

Early issuance of the corrected patent application is requested.
